

Basements in Westminster, Kensington, Chelsea and Camden

We specialise in advising on basement planning applications, but most of our projects are so sensitive that strict confidentiality agreements prevent us from reproducing any details other than what is already within the public realm.

These projects are often extreme and require an extraordinary level of expertise to see important trees successfully retained from planning through to completion and beyond.

LPAs: City of Westminster, Royal Borough of Kensington & Chelsea, London Borough of Camden

- Issues:**
- Excavating beneath mature trees
 - Structures & surfacing in RPAs
 - Intense site activity
 - Historic settings

Trees: Andy Sherlock & Mark Wadey
