Recreational tree and woodland management

We are particularly proud to be associated with this project because its sustainability aspirations align perfectly with our own environmental policy. Of course, The Wave has surfing at its heart, but it also showcases renewable energy and sustainable building techniques, all set within a green environment dominated by trees and gardens. The project is all about fun, but we like the idea that those enjoyable experiences are set within a framework of nature, with trees being an integral part of all those nice memories.

LPA: South Gloucestershire Council

Trees: Andy Sherlock

- Issues:**
- Sustainable development
 - Educational recreation
 - People and woodlands
 - Creative problem solving
