

Oak Tree Drive, Emsworth, Hampshire

Residential housing development

“Oak Tree Drive is a modern example of making places pleasant for people to live in through a progressive approach to the design and construction of new buildings within an existing sensitive landscape.

The retention and protection of valuable existing trees creates an immediate sense of place, with imaginative planting of new trees ensuring that green feel will be sustained in perpetuity.

This successful outcome has been the result of tree consultants working closely and in partnership with the local Planning Authority, in this case Havant Borough Council.”

Jamie Gargett,
Principal Arboriculturist
Havant Borough Council

Trees: Dave Cashman

Client: Cala Homes
www.cala.co.uk

Issues:

- Place making using existing trees
- Strategic tree planting
- Detailed discussions with LPA
