

Qualifications and experience summary for  
Jeremy Barrell **BSc FArborA DipArb CBiol FICFor FRICS**

- 1 **Formal qualifications:** I have an Honours Degree in Environmental Forestry (1978). I am a Fellow of the Institute of Chartered Foresters (1996) and a Fellow of the Royal Institution of Chartered Surveyors (2008). I am a Fellow (1989) and Registered Consultant (1994) of the Arboricultural Association (AA). I was an AA Approved Contractor from 1984–1995. I am a Chartered Forester (1980), a Chartered Biologist (1993), a Chartered Surveyor (2008), and hold the Royal Forestry Society's Professional Diploma in Arboriculture (1990). In 2001, I was honoured with the AA Award for services to Arboriculture and, in 2010, I become the American Society of Consulting Arborists' first Registered Consulting Arborist resident in the UK.
- 2 **Practical experience:** On leaving University in 1978, I joined the Forestry Commission as a Field Surveyor and began my tree contracting business in 1980. For the next 15 years, I developed this contracting business, leaving it in 1995 to concentrate full-time on consultancy. Barrell Tree Consultancy ([www.barrelltreecare.co.uk](http://www.barrelltreecare.co.uk)) is now a well-established advisory practice, with an international focus on the legal, heritage, and planning aspects of tree management.
- 3 **Professional experience:** I have been dealing with tree hazard assessment throughout my career. Between 1993 and 1996, I was a Government tree preservation order (TPO) appeal inspector reporting to the Secretary of State. This involved impartially assessing an entire range of tree management issues, including TPO administration and subsidence damage. I have extensive expert witness experience in civil and criminal actions, and inquests (<https://www.barrelltreecare.co.uk/assets/Uploads/LegalCases-Updated-301217.pdf>). In 2009, I attended and passed the Land Skills Training & Assessments (Lantra) Professional Tree Inspection course, which is the premier tree inspection accreditation scheme in the UK. I attended two refreshers for that course in 2016.
- 4 **Continuing professional development:** I have a busy schedule of lecturing around the world and regularly deliver keynote presentations at international conferences. I have written more than 120 papers and articles on a range of tree management issues (<https://www.barrelltreecare.co.uk/resources/articles-and-papers/>), including acting as the guest contributor on arboriculture for the Horticulture Week *Opinion* column since 2009. I specialise in developing tree assessment methods that are published on a dedicated website at [www.TreeAZ.com](http://www.TreeAZ.com). I was on the panel that produced BS 5837 (2005) and was involved in producing and promoting BS 8545 (2014) *Trees: from nursery to independence in the landscape – Recommendations*. I am on the steering group of the Trees & Design Action Group's (TDAG) ([www.tdag.org.uk](http://www.tdag.org.uk)) forthcoming publication, *Trees and Planning: A Guide for Delivery*. I am also a TDAG Trustee.

A summary of presentations that I have given, papers and articles that I have written, and continuing professional development events I have attended, are as follows:
